EXPERIENCE THE CONVENIENCE OF A COMPLETE TURN-KEY PACKAGE

Design | Supply | Install | Commission | Aftermarket Support

From simple storage and feeding systems to complex reagent preparation systems, we've done them all. And we've supplied systems to some of the most demanding customers in the world.

STT makes the process simple and easy for your team by providing all the in-house expertise necessary to successfully take your project from design to build, on time and, on budget.

Plus, with the experience of over a thousand completed systems, our team will help you to avoid costly mistakes - guaranteed.

- ✓ Long standing partnership with global leader in tank manufacturing
- ✓ The only supplier with the ability to jack-build chime panel silos
- ✓ In-house construction crews based in Western Canada
- ✓ Over 1,200 systems installed globally
- ✓ ISO 9001: 2008 Certified
- ✓ ISNetwork, ComplyWorks, PICS Registered

WHY CHIME PANEL SILOS?

- External Horizontal Flanges (Chimes) add additional structural integrity
- Staggered Vertical Joints create maximum strength
- Smooth interior walls create superior product flow

The importance of experienced silo design

JACK BUILT - CHIME PANEL SILOS

We're the first - and ***the only!***

We can combine the robust design of a chime panel silo's with the construction advantage of flat panel silos by utilizing our jacks:

- Engineered and certified to ASME B30.1 standard
- Improve the installation time & reduce overall cost
- Reduce potential hazards for employees working at height
- Reduce heavy lifting equipment on site

You'll love the convenience of working with a flexible team, nimble enough to be responsive to changes in customer requirements.

OUR PARTNER - THE CST STORAGE ADVANTAGE

CST Storage is the world's largest provider of modular, factory coated bolted storage tanks.

With over a century in the business, CST has exceptional technical capability, product range and experience.

Our strength is integrating all of the important components of your complete system, and understanding how to source them from the best suppliers - starting with CST.

OUR CUSTOMER DRIVEN APPROACH

- STT provides on-site aftermarket support and services to ensure your system continues to run safely, reliably and efficiently for the life of your plant.
- Our Project Managers are backed up by a team of Professional Engineers certified in each of the jurisdictions we work in. Your design will have a local P.Eng. stamp to ensure we meet your local requirements.
- We possess our own quality control and supervision department, and insist that our sub-vendors meet rigorous quality and safety standards.
